DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Ghalayini (5,297,353).

Ghalayini discloses a trigonal prism turning display device for advertisement comprising: six trigonal prisms **B** (the word “comprising” means that the reference must have at least six prisms, but may have more) arranged in a shape of a regular triangle (Fig. 2), each of the six trigonal prisms having an advertising screen displayed on each of the three sides thereof (col. 3, lines 58-62), upper **80** and lower **18** turning discs for supporting the six trigonal prisms **B** and rotating together with a main shaft **76**; driving means (the portion of shaft **76** between disk **18** and the unlabelled bottom plate) mounted under the lower turning disc, for rotating the six trigonal prisms **B**; a disc-shaped device (the unlabelled bottom plate) supporting means mounted under the driving means and fixed to the inner surface of a cylindrical housing **40** at the outer peripheral portion thereof, for supporting the main shaft and the driving means, and a motor **70a** disposed under the disc-shaped device supporting means in such a manner as to be connected to the lower end of the main shaft by a coupler **76a**.

Regarding claim 3, see col. 4, lines 5-8.

Allowable Subject Matter

3. Claims 4-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
